Detailed Action

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to the independent claims 1, 8, and 9, prior art fails to disclose or make obvious, in addition to the accompanying features of the claims, an electron beam writing system comprising of an electron source; an electron optics system irradiating for scanning an electron beam emitted from said electron source on a sample wherein the deflection means has at least two different deflection speeds and an objective lens to form a desired pattern on said sample; including in addition a function whereby the electron beam is moved by high speed scanning with said deflection means repeating the formation of a patterned beam; and a function moving said electron beam on said mark for beam correction by low speed scanning with said deflection means in synchronization with one cycle of said repetition.

The dependent claims 2-7 and 10-12 are allowable by virtue of their dependence upon the independent claims 1 and 9, respectively.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pinto et al. (6,566,885 B1) disclose multiple directional scanning with charged particle beams of test structures on semiconductor integrated circuits. Meisberger et al. (5,578,821) disclose a charged particle beam scanning system and automatic inspection system including wafers and masks used in microcircuit fabrication. Nakasuji et al. disclose

(2002/0148961 A1) an electron beam apparatus having a plurality of optical systems for scanning and irradiating a sample and detecting the respective secondary electrons emitted from each of the respective regions of the sample.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
